Cruising Notes

Day 1

From Wrenbury marina turn east you will soon encounter your first Lift bridge, if it is down you need to get your windlass out and let someone off the boat to open it up.

There are 3 locks at Baddiley but apart from that the countryside is flat, rich farmland.

You can moor up after a couple of hours cruising by Halls lane bridge 12, and take the track to Ravensmoor where you will find the Farmers Arms serving real ale & meals.

Day 2

There are 2 locks at Swanley but no more until you reach the end of the Llangollen canal at Hurleston, where there are 4 in quick succession. Hurleston reservoir is off to the left.

Turn left at Hurleston junction onto the Shropshire Union Canal, you will follow the reservoir for a short while. At Barbridge you reach the junction of the Middlewich branch of the Shropshire Union, but you carry straight on and head towards Chester, you are joined by a busy road until it turns away at Calveley. There is a bar & grill at Barbridge.

At Bunbury Wharf, 2 staircase locks require thought before action, they are 14 feet wide like all subsequent locks between here and Chester. The village of Bunbury is 1 mile south west of the Locks and has stores, butcher & take away fish & chips & a couple of pubs.

Bunbury water mill is up the hill from Bunbury Wharf, & is open Easter-Sep & gives guided tours around its fully restored watermill.

From Wharton Lock is an excellent view of Beeston castle- a massive ruin dating back to the 14th century which is visible from 30 miles away. The castle was built by the Earl of Chester in 1337, & is situated on the top of a steep hill dominating the surrounding countryside. It is open April to September.

Beeston Castle is also known as the the formidable 'Castle of the Rock'. Climb to the top of this impressive crag with incredible views over eight counties, from the Pennines to the Welsh mountains. Legend has it that Beeston

still guards King Richard II's lost treasure – maybe your family can find it? An exciting exhibition details the secrets of 4,000 years of Beeston Castle's history, from Bronze Age settlement to Iron Age hill fort, the Castle itself was begun in 1225.

With over 40 acres of unspoiled woodland trails to explore and an abundance of wildlife Beeston Castle and Woodland Park makes for a truly exhilarating and enchanting day out for all the family.

The Canal continues through the flat but green Cheshire landscape, the Cheshire cycleway following the canal here, and continues all the way into Chester.

Off to the left by bridge 113 there is a pub- the Poachers Pocket.

Continue through the quiet countryside there are no stores until you get to Waverton where there is a shop.

Just past Waverton off to your left was the site of the Battle of Rowton Moor in 1645, where one of the last major battles of the Civil War took place, with the Parliamentarians beating the Royalists.

You are now on the outskirts of Chester and some of you may wish to moor up here and turn around at Christleton, near bridge 121, near the Cheshire Cat pub, thus saving 6 hours of cruising time to negotiate the 10 locks down into Chester and back. There is a very convenient Park & Ride here which can take you into the city of Chester in a few minutes.

It is 8.25 cruising hours to here from Halls lane bridge 12.
